

**13.6 NOTICE OF MOTION - RURAL BANKING OPTIONS (WEE WAA)****Attachments: Nil**

I, Councillor Maxine Booby, give notice that at the next Ordinary Meeting of Council be held on 27 July 2021, I intend to move the following motion:

**MOTION****1. That Council notes that:**

- a. Bank branch and ATM closures are leaving many communities without access to financial services, especially in regional Australia.**
- b. Since 1975 the number of bank branches in regional Australia has fallen by more than 60 per cent, and there are more than 1,500 communities across Australia with no bank branches at all.**
- c. A large proportion of the population, including the elderly, disabled, small businesses and local schools and charities, will always have a need for face-to-face financial services despite advances in technology.**
- d. For hundreds of communities, their only access to cash and financial services is through Bank@Post at their community Post Office.**
- e. Bank@Post is an essential service to all communities, but is vulnerable to commercial decision-making by the banks, which can choose to withdraw their participation.**

- 2. That Council calls on the Commonwealth Parliament to pass the Commonwealth Postal Savings Bank Bill to establish a post office people's bank, fully guaranteed by the Commonwealth, as a dedicated postal savings bank, operating exclusively through Australia Post's corporate and licensed post offices, which will ensure basic banking services—including deposit-taking, business and personal lending, and access to cash—are available to all Australians, and will contribute to Australia's national economic development.**

**RATIONALE**

As Councillors would be aware Wee Waa has recently lost both banks and their services.

This has disadvantaged many people and businesses and charity groups in town. Businesses have had to allow an employee to travel to Narrabri to do business banking. This involves 1-2 hours of lost time. Businesses need to bank daily takings and or access cash to service customers in their shopping. Not everyone uses eftpos cards.

Charities do not have local access for cash for functions and these functions run on cash, ie: raffles, street stalls, Christmas carnival etc. A Commonwealth Postal Savings Bank would ensure these services that are so important to the smooth functioning of a community.

The present arrangement between the National Australia Bank and Commonwealth Banks can change at the banks' whim. Already charges for transactions have increased to \$4.50.

The situation in Wee Waa is exacerbated by the removal of the town's ATM. Eftpos is available for limited cash at IGA and the Bowling Club if you are a member. When the internet went down last week for 3 days people could not access their money and businesses could not service cards or cash outs.

A Commonwealth Postal Savings Bank (CPSB) would permanently secure the financial viability of Australia Post and the LPOs, based on a legislated agreement with Australia Post that guarantees the LPOs share the revenue - their income will not be at the mercy of the private banks deciding whether or not to renew their Bank@Post deals.

It would guarantee financial services for all Australians. The private banks have abandoned small towns in regional Australia and low-income suburbs, but they all have post offices, through which they will be able to bank with CPSB.

It would guarantee bank deposits. The CPSB will be a public bank, owned by the government, which will guarantee all deposits, so Australians who bank at the postal bank will know they won't lose their savings in a financial crisis or deposit "bail in".

There would be no "de-banking". As a public bank the CPSB will not be allowed to discriminate by de-banking lawful businesses.

It would support cash payments. The private banks are trying to do away with cash, which would be a disaster. The CPSB would allow people to always access cash.

I commend this Notice of Motion to Council.

### **Report**

Attached to this report is correspondence from the Australian Citizens Party including draft legislation to establish a Postal Savings Bank in Australia. The Australian Citizens Party is seeking Council support for the establishment of the Postal Savings Bank.

Councillors would be well aware of the withdrawal of banking services across Australia over the last 30 years and how the adverse effect of this has been disproportionately felt by small rural communities.

Three commercial banks currently banking have banking service arrangements with Australia Post (National Australia Bank, Commonwealth Bank and Westpac Bank). The National Australia Bank and Commonwealth Bank have agreements extending through to 2030 with Westpac Bank currently negotiating longer term arrangements with Australia Post.

The existing commercial arrangements between the major banks and Australia Post does not offer the same level of security of access to banking services as government mandated services such as that proposed by the proponents of the Postal Savings Bank.

Council endorsement of the proposal is recommended.

#### Purpose of Report

To present to Council a request from the Australian Citizens Party regarding the establishment of a national Postal Savings Bank.

#### Background

As discussed at the October Councillor Discussion Session, Councillors received an email from a Melissa Harrison, who introduces herself as a researcher and reporter for the Australian Alert Service, the weekly magazine of the Australian Citizens Party.

The correspondence (attached) speaks about the “steady erosion of banking services in regional and rural Australia”, and details the following:

*Access to local banking services is critical in our regional communities. With the banks pulling out of regional Australia at a record pace, the public is increasingly relying on Australia Post to provide banking services. However, Australia Post is too vulnerable to the whims of the government of the day and commercial decisions from the Big Four banks.....*

*...Alarmingly, there are no written guarantees that the banking deal with the Licensed Post Offices will continue. The LPOs are vulnerable to the banks pulling out unexpectedly, leaving them where they were before the Bank@Post deal—on the edge of bankruptcy and being exploited by the government and the banks. The big banks are already throwing their weight around by charging exorbitant fees for their customers who want to bank through Australia Post. Without the banking services provided by Australia Post, many parts of regional Australia would not have access to banking at all.*

*We are calling on local councils and organisations to ask them to join us in fighting for federal legislation to create a Commonwealth Postal Savings Bank. A public postal savings bank will guarantee banking services at Australia Post, and support the Licensed Post Offices to provide financial services for regional and rural Australians.*

*We have drafted legislation for a public postal bank, the Commonwealth Postal Savings Bank Bill 2021.*

Councillors sought to have the matter referred to the November Council meeting for a determination.

### **Comment**

The correspondence seeks Councils to support the bill, and provided a suggested resolution as follows;

**1. *The Council notes that:***

- *Bank branch and ATM closures are leaving many communities without access to financial services, especially in regional Australia;*
- *Since 1975 the number of bank branches in regional Australia has fallen by more than 60 per cent, and there are more than 1,500 communities across Australia with no bank branches at all;*
- *A large proportion of the population, including the elderly, disabled, small businesses, and local schools and charities, will always have a need for face-to-face financial services, despite advances in technology;*
- *For hundreds of communities, their only access to cash and financial services is through Bank@Post at their local post office;*
- *Bank@Post is an essential service to all communities, but is vulnerable to commercial decision-making by the banks, which can choose to withdraw their participation, and charge excessive fees on transactions;*
- *With four major banks controlling 80 per cent of the financial system, Australian consumers suffer from a lack of real banking competition;*

**2. *The Council calls on the Commonwealth Parliament to pass the Commonwealth Postal Savings Bank Bill to establish a post office people's bank, fully guaranteed by the Commonwealth, as a dedicated postal savings bank, operating exclusively through Australia Post's corporate and licensed post offices, which will ensure basic banking services—including deposit-taking, business and personal lending, and access to cash—are available to all Australians, and will contribute to Australia's national economic development.***

**3. *The Council will write to the Local State and Federal Members of Parliament, to inform them of Councils desire to support the passage of the Commonwealth Postal Savings Bank Bill through Parliament. .***

The Yilgarn district has lost two banks in the last few years and the community, including the Shire, are reliant on the local Australia Post outlet, or must travel over 200km round trip for depositing and in person banking needs.

As requested by Council, the resolution has been provided for their consideration.

**Subject: Att Councillors: In regards to a Postal Savings Bank**

Dear Councillors,

My name is Melissa Harrison. I am a researcher and reporter for the Australian Alert Service, the weekly magazine of the Australian Citizens Party. I'm writing to you because we are part of a grassroots campaign which is fighting for the establishment of a national Postal Savings Bank.

I am writing to local councils in Western Australia which have been impacted by the steady erosion of banking services in regional and rural Australia. Research by independent journalist Dale Webster has documented that since 1975, Australia's regional banking footprint has dwindled alarmingly, to a total loss of 60 per cent of the network. [1] The banking regulator, the Australian Prudential Regulation Authority (APRA), is shielding the big banks from the ire of the public by publishing false and distorted data about the scale of bank closures in regional Australia. [2]

Access to local banking services is critical in our regional communities. With the banks pulling out of regional Australia at a record pace, the public is increasingly relying on Australia Post to provide banking services. However, Australia Post is too vulnerable to the whims of the government of the day and commercial decisions from the Big Four banks. Although it was recently announced that the historic Bank@Post deal had been renewed, Australia Post is refusing to reveal the financial details of the deal that was struck with the Big Four banks. The Citizens Party has made freedom of information requests for clarity on these matters, but these have been rejected. The Citizens Party understands from reputable sources that the Community Access Fee to be paid by the big banks is now only \$10 million per year, half the amount that former Australia Post CEO Christine Holgate negotiated for the original deal. Alarmingly, *there are no written guarantees* that the banking deal with the Licensed Post Offices will continue. The LPOs are vulnerable to the banks pulling out unexpectedly, leaving them where they were before the Bank@Post deal—on the edge of bankruptcy and being exploited by the government and the banks. The big banks are already throwing their weight around by charging exorbitant fees for their customers who want to bank through Australia

Post. Without the banking services provided by Australia Post, many parts of regional Australia would not have access to banking at all.

We are calling on local councils and organisations to ask them to join us in fighting for federal legislation to create a Commonwealth Postal Savings Bank. A public postal savings bank will guarantee banking services at Australia Post, and support the Licensed Post Offices to provide financial services for regional and rural Australians.

We have drafted legislation for a public postal bank, the [\*Commonwealth Postal Savings Bank Bill 2021\*](#).

On 27 July, councillors at the Narrabri Shire Council (NSW) unanimously passed a resolution supporting the *Commonwealth Postal Savings Bank Bill*, and called on Parliament to pass the legislation. On the 28 July, the Banana Shire Council (QLD) passed a similar resolution. [3] We have been informed that the action of these local councils has made a strong impression on members of federal parliament.

We have drafted the following motion/resolution as a guide, which I am asking you to consider discussing and moving at your next meeting, to endorse the *Commonwealth Postal Savings Bank Bill*.

#### **Draft motion/resolution for a Commonwealth Postal Savings Bank**

1. **The Council notes that:**

- Bank branch and ATM closures are leaving many communities without access to financial services, especially in regional Australia;
- Since 1975 the number of bank branches in regional Australia has fallen by more than 60 per cent, and there are more than 1,500 communities across Australia with no bank branches at all;
- A large proportion of the population, including the elderly, disabled, small businesses, and local schools and charities, will always have a need for face-to-face financial services, despite advances in technology;
- For hundreds of communities, their only access to cash and financial services is through Bank@Post at their local post office;
- Bank@Post is an essential service to all communities, but is vulnerable to commercial decision-making by the banks, which can choose to withdraw their participation, and charge excessive fees on transactions;
- With four major banks controlling 80 per cent of the financial system, Australian consumers suffer from a lack of real banking competition;

2. **The Council calls on the Commonwealth Parliament** to pass the *Commonwealth Postal Savings Bank Bill* to establish a post office people's bank, fully guaranteed by the Commonwealth, as a dedicated postal savings bank, operating exclusively through Australia Post's corporate and licensed post offices, which will ensure basic banking services—including deposit-taking, business and personal lending, and access to cash—are available to all Australians, and will contribute to Australia's national economic development.

3. **The Council will write** to the Local State and Federal Members of Parliament, to inform them of Councils desire to support the passage of the *Commonwealth Postal Savings Bank Bill* through Parliament.

I live in a regional town myself, in Winneup Western Australia. The nearby towns of Boyup Brook, Balingup and Donnybrook have lost their last 'Big Four' bank. Access to banking services is essential for the functioning of our local businesses and tourism—markets, artists, craftspeople and local producers. A public postal bank would ensure these community businesses are supported in perpetuity.

14.6 NOTICE OF MOTION SUBMITTED BY COUNCILLOR CAI  
SUBJECT: SUPPORT FOR THE DRAFT BILL TO ESTABLISH A COMMONWEALTH POSTAL SAVINGS BANK (CPSB)

I MOVE:

That Council write to the relevant Federal Ministers and all Federal Members of Parliament urging that they support the *Commonwealth Postal Saving Bank Bill 2021* for:

- (i) the betterment of every Strathfield and Australian citizen; and
- (ii) the betterment of Strathfield Council's and all Australian Councils' finances.

Rationale

*Why is postal banking a local government issue?*

- The financial bottom line of councils, can benefit from increased banking competition and low-cost loans, is a local government issue.
- Improving the quality of life for constituents is a responsibility that connects all levels of government.

*Why the need for a post office bank?*

- The Big 4 banks particularly have been closing branches at an alarming rate throughout Australia over the last few decades. Post Offices have a public mandate to remain open to communities everywhere.
- The Big 4 banks particularly have been moving away from face-to-face services and towards electronic services leaving traditional customers, including elderly and disabled, behind.

*How does it work?*

- Local banking and local lending keeps money circulating within the local economy.
- Raises more investment for local, state and federal infrastructure.
- By funding more infrastructure through low-cost loans, there will be more surplus federal and state government revenue that can be utilized for expenditure on health, welfare, education, and public services.

*What are the benefits for Strathfield Council?*

- Lower-cost finance for infrastructure investment is better for Council's bottom line and reduces financial risk.
- A greater slice of rates left for services as a consequence of long-term works being funded with lower cost finance.
- More community aspirations can be included in the Community Strategic Plan and other high-level documents. The CSP can contain more community visions since there will be more effective and more reasonable funding opportunities.

*What are other benefits to residents?*

- More physical locations to access banking services will boost trade and maintain face-to-face banking.
- Better regulation of banks through real competition.
- Far more local infrastructure and consequential increases in the community standard of living.
- Bank retribution fear (debanking) can be eliminated as a government provider is obligated to serve all constituents.
- Lower banking fees and lending cost through absence of the need for the postal bank to pay dividends to shareholders.

*Precedents?*

- Japan, with far less natural resources, has virtually built its high standard of living (e.g. totally rebuilt its industrial economy) using public investment funded by its postal bank, Japan Post Bank.
- New Zealand in 2002 started a postal bank, Kiwibank, which quickly overtook its Australian-owned private banks to become the most trusted banking brand in NZ, because its priority is providing a service to the community over the usual demands to pay shareholders a dividend.
- Australia had a government bank, the original Commonwealth Bank, which also started as a postal bank in 1912, and was successful straight away at lending money to councils for local infrastructure projects; later it was very important for financing industry during and after WWII, including the car industry, and it also financed the biggest expansion of social housing in Australian history in the decade after WWII.

*Why do public banks disappear?*

- Public banks are created to fill a public need, but since the 1970's the private commercial banking lobby grew stronger, eventually overpowering the government's commitment to public banking.
- The public bank is taken for granted while it operates (business as usual) and the general citizenry are rarely aware of its importance. However, public banks are the bane of existence of the private banks because they force real competition across the banking sector to service the wider community.

*Other benefits of a public post office bank?*

- Full guarantee of all deposits since the public national bank is government-owned (no \$250,000 limit) as compared with private commercial banks.
- Maintain cash availability and ensure cash payments for customers as the Big 4 banks drift further toward online services.
- Lend to local small business, boosting the ailing "backbone of our economy".

*Other benefits of a public post office bank?*

- A lift in banking conduct standards is inevitable with a Post Bank which will exist to provide a true banking service.
- The viability of Australia Post will be ensured due to the guaranteed extra revenue post offices will receive from also operating as bank branches (the current service, Bank@Post, is not guaranteed, as it depends on fees from the private banks, which they are increasingly reluctant to pay).
- As mentioned earlier surplus deposits in the Post Bank could be invested in national economic development projects, where even the Federal and State governments could borrow funds from the public national bank (as in Japan).

## RECOMMENDATION

That Council write to the relevant Federal Ministers and all Federal Members of Parliament urging that they support the *Commonwealth Postal Saving Bank Bill 2021* for:

- (i) the betterment of every Strathfield and Australian citizen; and
- (ii) the betterment of Strathfield Council's and all Australian Councils' finances.

#### 8.10 United Indian Association – 75<sup>th</sup> Anniversary Independence Day Celebration – Councillor Raj Datta

I wish to congratulate the United Indian Association, a peak body of community organisations of the Australians from Indian Heritage, and its President Dr Vyas, for organising the 75th anniversary of Indian Independence Day, azadi ki Mahotsav. It was an important event and would contribute to the relationship building between Australia and India. Moving forward the bilateral relationship between India and Australia will become increasingly more important for peace and prosperity of all Australians. Events like this will contribute to building an increasingly stronger relationship between Australia and India.

#### 8.11 NSW Train and Bus Drivers – Industrial Action – Councillor Sharangan Maheswaran

That NSW train and bus drivers, more specifically the Rail, Tram and Bus Union (RTBU) and Transport Workers' Union (TWU) be acknowledged.

Strathfield residents would've been affected by industrial action taken over the last month this action has been taken because the NSW Government has demanded that the train and bus drivers that saw us this State through the Covid-19 crisis take a pay cut. More than that, the train and bus drivers are striking, despite an offer of an \$18,000 pay increase, due to tremendous safety concerns regarding foreign made trains and buses being operated across NSW.

Whilst Strathfield residents may have been inconvenienced in the last month, our residents should be assured that this action has been taken for their best interests.

28 August 2022: Flinders Shire Council

Dear Mayor McNamara,

HAVE YOU HEARD ABOUT THIS PROPOSAL FOR A NEW BANK?

Enclosed please find a flyer about the proposed Commonwealth Postal Savings Bank. The flyer fleshes out some details of the key points about this proposed new Bank.

Herewith too, a summary of the 4 key points (a half-minute read):

1. The Commonwealth Postal Savings Bank Act 2021, (to be tabled by Bob Katter in Federal Parliament) would be a permanent solution to secure the long term viability of the LPOs (Licensed Post Offices). It would be good for the LPOs to be free of having to negotiate payment contracts for services rendered to the big four banks. (Since Christine Holgate left, those contracts are not as good a deal as they should be for the LPOs.) This new entity would provide all financial products and banking services, including short and long-term loans and including long-term financing of infrastructure projects to support business, economic growth and increased productivity, especially in Regional Australia. The Post Offices would no longer simply be agents facilitating deposits and withdrawals for the big four banks.
2. The government-backed Postal Savings Bank would fill the vacuum being left by the never-ending bank closures all over the country.
3. There are seven main reasons to establish a public post office bank.
4. Are you able to pass a Council resolution in support of the establishment of a Commonwealth Postal Savings Bank? If so, please forward that resolution to your federal representative, to your Qld State Representative/s and to all Queensland Senators of all parties.

Regards,

Hazel Kleinau

Dear Robbie

**RE: COMMONWEALTH POSTAL SAVINGS BANK**

Council recently received the attached letter and flyer from Hazel Kleinau in relation to the proposed Commonwealth Postal Savings Bank.

The letter was presented at Council meeting held on 20 September 2022 for information. At this meeting Council resolved to write to you in support of the establishment of this bank to provide basic banking opportunities for the residents of our Shire, as a solution to the many banking and financial problems confronting rural and remote communities at present with the ongoing closure of many of the big bank's branches in the smaller communities and Australia wide.

Yours sincerely

**NOM-2 NOTICE OF MOTION - POST OFFICE PEOPLES BANK****Author:** Councillor Richard Foley**Summary:**

In light of recent bank branch closures in the Riverina and throughout regional Australia, this Council calls on the Commonwealth Government to establish a Post Office peoples bank, guaranteed by the Commonwealth, which will ensure that basic banking services are available for all Australians.

**Recommendation**

---

That Council:

- a supports the establishment of a Post Office peoples bank, guaranteed by the Commonwealth Government, which will ensure that basic banking services are available for all Australians
- b requests that the Mayor writes to all relevant Federal Ministers regarding this motion within seven (7) days

**Report**

---

Throughout the past three decades banking services across regional Australia have been withdrawn from numerous regional centres and small rural communities. These ongoing bank closures have adversely disadvantaged and disproportionately affected these communities particularly aged members of these communities and small businesses.

The following are just some of the reasons why our regional communities need access to physical banking services:

1. Since the early 1980's the number of bank branches across Australia has fallen by more than 60%. These closures have impacted more than 1500 communities across regional Australia leaving them with no access to bank branches.
2. Despite recent advances in technology with online banking many sectors of the population are still in great need of physical banking services including elderly persons, disabled persons, small business sector, local schools and charitable organisations.
3. Bank branch closures have been further exacerbated by the removal of ATM machines from these regional communities forcing many to travel to other towns to access cash and/or banking services. This is now the case for the people of nearby Junee who now do not have access to a Commonwealth Bank branch leaving citizens in Junee to travel to Wagga Wagga to access physical banking services.
4. There is an agenda to completely eliminate cash entirely from our society in order to lock the savings of Australians into the major big four banks forcing us all to transact electronically for everything. This is an attack on the financial privacy of all Australians.

5. Small businesses that cannot physically bank their cash are forced to keep it on their premises creating serious security risks likewise, elderly Australians end up keeping cash on their premises which is also risky.

The most straight forward and cost effective way to establish a Postal Bank is using the existing infrastructure of post offices. Australia Post has the biggest retail footprint of any business in Australia which is required and mandated by law to maintain services to all Australians. Post offices already have limited banking infrastructure via the provision of the Bank@Post service which is an agreement Australia Post has with the big four banks for serving their customers many of which they rejected by closing their bank branches. The big four banks can withdraw from this agreement at their whim.

Clearly none of the above is acceptable anymore to most Australians at a time when these big four banks are raking in massive record profits at the expense of regional Australian communities. Therefore, it seems logical that calling upon the Commonwealth Government to re-establish a public bank using the Australia Post infrastructure would be an ideal answer to provide face to face banking services to more Australians than any of the big four banks combined which collectively are continuing to withdraw these services from regional Australians.

I propose that this council endorses and supports the following motion:

1. The reduction and continuing closure of bank branches in our local regional communities has had detrimental effects to these communities.
2. The current existing commercial arrangement between the big four banks and Australia Post via Bank@Post does not provide surety or any real long term access to physical banking services to regional and rural Australians.
3. Wagga Wagga City Council supports the establishment by this Commonwealth Government, a Commonwealth Postal Savings Bank as a solid, reliable and secure way to ensure access to physical banking services for regional and rural Australians.
4. Upon the passing of this Notice of Motion that the Mayor of the City of Wagga Wagga writes to the appropriate Federal Ministers expressing our support as a council for the above three points. This correspondence is to be written and submitted within 7 days of the passing of this Notice of Motion by council on the 17 October 2022.

#### Discussion

The Australian Citizens Party is part of a nationwide campaign to establish a new government bank, like the original Commonwealth Bank, to operate in post offices, which would guarantee face-to-face financial services for all communities, and force the Big Four banks to compete on both cost and service.

The post office bank would also:

- Guarantee deposits, because it is a government bank;
- Maintain cash payments and processing, which the private banks are trying to do away with;
- Increase lending to individuals and small businesses in regional communities;
- Invest in more infrastructure, including through local government.

This campaign is supported by the Licensed Post Office Group (LPOG), which represents the interests of the almost 3,000 community post offices which are run as small businesses, the majority of the Australia Post network.

And it is supported by Katter's Australian Party, One Nation, the Greens, senior members of the National Party, and members of the Liberal and Labor parties.

Bob Katter MP is preparing a bill to introduce into Parliament, called the Commonwealth Postal Savings Bank Bill.

Local Councils are being invited to pass motions to endorse the bill and communicate the endorsement to their local federal Member of Parliament.

Five Councils have now passed motions:

1. Narrabri Shire Council (NSW)
2. Banana Shire Council (QLD)
3. Yilgarn Shire Council (WA)
4. Cobar Shire Council (NSW)
5. Strathfield City Council (NSW)."

#### SUMMARY

*Correspondence was received by the Australian Citizens Party seeking support for the establishment of a Postal Savings Bank in Australia.*

#### OFFICER'S RECOMMENDATION

THAT Council:

1. Calls on the Commonwealth Parliament to pass the Commonwealth Postal Savings Bank Bill to establish a post office people's bank, fully guaranteed by the Commonwealth, as a dedicated postal savings bank, operating exclusively through Australia Post's corporate and licensed post offices, which will ensure basic banking services—including deposit-taking, business and personal lending, and access to cash—are available to all Australians, and will contribute to Australia's national economic development.
2. Write to the Local State and Federal Members of Parliament, to inform them of Councils desire to support the passage of the Commonwealth Postal Savings Bank Bill through Parliament.

#### BACKGROUND

The reduction in bank branches has resulted in reduced access to banking and financial services particularly in rural communities. Arrangements such as those with Australia Post do not provide long-term security of access to services. The establishment of a Commonwealth Postal Savings Bank would provide a secure way for rural communities to access banking services.

#### COMMENTARY

Council received the below correspondence from the Australian Citizens Party on 16 August 2021, including draft legislation, seeking support for a Commonwealth Postal Savings Bank. This comes as a response to the withdrawal of banking services across Australia.

*Dear CEO of Livingstone Shire Council,*

*My name is Jan Pukallus. I am an organiser with the Australian Citizens Party. I am emailing you today because we are campaigning for the establishment of a Postal Savings Bank. I spoke to Lucy and request a deputation to address councillors, however, please note that I will only be in Livingstone Shire region on Tues 24 & Wed 25 August.*

*I am contacting Councillors and organisations to inform them, and to call upon them, to join me in fighting for federal legislation to create a Postal Bank. The legislation for such a bank has been drafted by the Citizens Party, the [Commonwealth Postal Savings Bank Bill 2021](#).*

*There are many reasons why, but this is an important local issue because local access to banking services is critical to every community. With the banks increasingly withdrawing their face-to-face services and also ATMs, the reliance on the Post Office offering those services is critical, but that too is vulnerable to commercial decision-making by the banks. I know you probably already know this but the withdrawal of these services disproportionately affects rural and regional communities.*

On 1 July, Australia Post announced CBA and NAB had agreed to renew their Bank@Post deals for ten years although since the details are not being made public there is no knowledge of what the agreement actually contains and this makes a great many people nervous. Speculation is that it's far less than the \$20 million per year that Christine Holgate negotiated and may contain exit clauses. The Citizens Party has it on good authority that the Community Access Fee to be paid by NAB and CBA is \$10 million per year, half of the original deal and there are no written guarantees that the Licenced Post Offices will continue to receive the same fee structure they have currently. Freedom of information requests by the Citizens Party for clarity on those issues have been rejected.

Whilst it's important that post offices can provide Bank@Post services, the banks currently have the upper hand—they pay Australia Post what they like, they can pull out unexpectedly, and they charge whatever fees they like. A public postal savings bank will guarantee banking services at post offices in perpetuity.

On 27 July, Councillors at the Narrabri Shire Council in NSW unanimously passed a resolution supporting the Commonwealth Postal Savings Bank Bill, calling on the Parliament to pass the legislation and on 28 July, the Banana Shire Council in QLD carried a similar resolution with no opposition.

We have also just been informed that on 3 August, the Licensed Post Office Group endorsed the Commonwealth Postal Savings Bank Bill.

The Citizens Party has drafted the following motion/resolution as a guide, which I am asking you to discuss and move at your next meeting, to endorse the Commonwealth Postal Savings Bank Bill.

Draft motion/resolution for a Post Office People's Bank:

3. That Council notes that:

- Bank branch and ATM closures are leaving many communities without access to financial services, especially in regional Australia;
- Since 1975 the number of bank branches in regional Australia has fallen by more than 60 per cent, and there are more than 1,500 communities across Australia with no bank branches at all;
- A large proportion of the population, including the elderly, disabled, small businesses, and local schools and charities, will always have a need for face-to-face financial services, despite advances in technology;
- For hundreds of communities, their only access to cash and financial services is through Bank@Post at their local post office;
- Bank@Post is an essential service to all communities, but is vulnerable to commercial decision-making by the banks, which can choose to withdraw their participation, and charge excessive fees on transactions;
- With four major banks controlling 80 per cent of the financial system, Australian consumers suffer from a lack of real banking competition;

2. That Council calls on the Commonwealth Parliament to pass the Commonwealth Postal Savings Bank Bill to establish a post office people's bank, fully guaranteed by the Commonwealth, as a dedicated postal savings bank, operating exclusively through Australia Post's corporate and licensed post offices, which will ensure basic banking services—including deposit-taking, business and personal lending, and access to cash—are available to all Australians, and will contribute to Australia's national economic development.

3. That Council write to the Local State and Federal Members of Parliament, to inform them of Councils desire to support the passage of the Commonwealth Postal Savings Bank Bill through Parliament.

*I wanted to keep this email brief as possible, as I know your busy, so I have attached are some additional documents that I hope you will find useful when you get some time to look at them.*

*Looking forward to discussing this with you further.*

*Regards,*

*Jan Pukallus*

*QLD State Secretary*

*Australian Citizens Party*

Further correspondence was received in relation to this matter on the 3<sup>rd</sup> October 2022. This correspondence is included as an attachment and contains links to the motions passed by other Councils.

## **CONCLUSION**

THAT Council calls on the Commonwealth Parliament to pass the Commonwealth Postal Savings Bank Bill to establish a post office people's bank, fully guaranteed by the Commonwealth, as a dedicated postal savings bank, operating exclusively through Australia Post's corporate and licensed post offices, which will ensure basic banking services—including deposit-taking, business and personal lending, and access to cash—are available to all Australians, and will contribute to Australia's national economic development.

Dear Mayor Ireland,

I am writing to ask you and your Council for your support for the growing campaign for a public post office bank in Australia, like those which operate successfully in many countries around the world.

As a local councillor, you would know the impact that the wave of closures of bank branches is having on communities, especially regional communities.

This impact is compounded by the reduction in bank lending into regional communities.

The Australian Citizens Party is part of a nationwide campaign to establish a new government bank, like the original Commonwealth Bank, to operate in post offices, which would guarantee face-to-face financial services for all communities, and force the Big Four banks to compete on both cost and service.

The post office bank would also:

- Guarantee deposits, because it is a government bank;
- Maintain cash payments and processing, which the private banks are trying to do away with;
- Increase lending to individuals and small businesses in regional communities;
- Invest in more infrastructure, including through local government.

*Please note:* This policy is different to the existing banking service in post offices, Bank@Post, because it is a dedicated postal bank that will increase competition, whereas Bank@Post is just an agency service for the existing banks which can withdraw any time. It is also different to community banks, which do an admirable job, but, again, they don't increase competition.

This campaign is supported by the Licensed Post Office Group (LPOG), which represents the interests of the almost 3,000 community post offices which are run as small businesses, the majority of the Australia Post network.

And it is supported by Katter's Australian Party, One Nation, the Greens, senior members of the National Party, and members of the Liberal and Labor parties.

On 7 September, the [LPOG hosted a public forum in Parliament House on the postal bank policy](#), which was attended by Member for Kennedy Bob Katter, Liberal Senator Gerard Rennick, Nationals Senator Ross Cadell, One Nation Senator Malcolm Roberts, and staffers

representing MPs from all the parties in Parliament. You can view the entire forum at this link: <https://www.youtube.com/watch?v=yWizMx7BgJs>.

The featured speaker was former New Zealand Cabinet Minister Matt Robson, whose party started NZ's postal bank, called Kiwibank, in 2002.

Mr Robson recounted Kiwibank's immediate success, including how New Zealanders flocked to open accounts, and how the private banks, suddenly having to compete, announced a moratorium on branch closures.

A public postal bank would have a similar impact in Australia.

We are seeking local government support for this campaign, to send a message to Canberra that this policy is what local communities need to improve essential services and investment.

The Citizens Party has produced the following short videos to explain benefits of the policy:

1. **[CREATE A PUBLIC POST OFFICE BANK! – The solution to the closure of local bank branches](https://www.youtube.com/watch?v=eMiwrVvNnPO)** (<https://www.youtube.com/watch?v=eMiwrVvNnPO>)

The major banks have closed more than 350 bank branches in the last two years and research shows that since 1975, regional Australia has lost 62% of its banks!

2. **[CREATE A PUBLIC POST OFFICE BANK! The solution to the financing needs of local government](https://www.youtube.com/watch?v=oNve8bPPNAM)**

This second video shows how a postal bank, because it is a public bank, could be a source of long-term, low-interest, flexible credit for local governments to meet their infrastructure responsibilities, as the Commonwealth Bank was when it started in post offices in 1912. (<https://www.youtube.com/watch?v=oNve8bPPNAM>)

### **How Councils can support**

Bob Katter MP is preparing a bill to introduce into Parliament, called the Commonwealth Postal Savings Bank Bill.

We are asking local Councils to pass motions to endorse the bill, and communicate the endorsement to your local federal Member of Parliament.

Five Councils have now passed motions:

1. Narrabri Shire Council (NSW)
2. Banana Shire Council (QLD)
3. Yilgarn Shire Council (WA)
4. Cobar Shire Council (NSW)
5. Strathfield City Council (NSW)

You can see the motions on our website: <https://citizensparty.org.au/campaigns/public-post-office-bank/post-bank-resolutions>.

Alternatively, download a PDF of the five motions:

<https://citizensparty.org.au/sites/default/files/2022-09/202209-Post-Office-Bank-PASSED-Council-Motions.pdf>

Please raise this policy for consideration by your council, with a view to passing a motion of support.

I am available for a phone call and to address your council and answer questions on the policy. Please don't hesitate to contact me on the numbers below.

**Purpose of Report**

Executive Decision

Legislative Requirement

**Summary**

This Item presents to Council a request from the Australian Citizens Party regarding the establishment of a national Postal Savings Bank and, if satisfactory, endorsement.

**Background**

As discussed at the October Workshop, Councillors received an email from Melissa Harrison, who introduces herself as a researcher and reporter for the Australian Alert Service, the weekly magazine of the Australian Citizens Party.

The correspondence (attached) speaks about the “steady erosion of banking services in regional and rural Australia”, and details the following:

*Access to local banking services is critical in our regional communities. With the banks pulling out of regional Australia at a record pace, the public is increasingly relying on Australia Post to provide banking services. However, Australia Post is too vulnerable to the whims of the government of the day and commercial decisions from the Big Four banks.....*

*Alarmingly, there are no written guarantees that the banking deal with the Licensed Post Offices will continue. The LPOs are vulnerable to the banks pulling out unexpectedly, leaving them where they were before the Bank@Post deal—on the edge of bankruptcy and being exploited by the government and the banks. The big banks are already throwing their weight around by charging exorbitant fees for their customers who want to bank*

*through Australia Post. Without the banking services provided by Australia Post, many parts of regional Australia would not have access to banking at all.*

*We are calling on local councils and organisations to ask them to join us in fighting for federal legislation to create a Commonwealth Postal Savings Bank. A public postal savings bank will guarantee banking services at Australia Post and support the Licensed Post Offices to provide financial services for regional and rural Australians.*

*We have drafted legislation for a public postal bank, the Commonwealth Postal Savings Bank Bill 2021.*

#### Comment

The correspondence seeks Councils to support the bill, and provided a suggested resolution as follows;

1. *The Council notes that:*

- *Bank branch and ATM closures are leaving many communities without access to financial services, especially in regional Australia;*
- *Since 1975 the number of bank branches in regional Australia has fallen by more than 60 per cent, and there are more than 1,500 communities across Australia with no bank branches at all;*
- *A large proportion of the population, including the elderly, disabled, small businesses, and local schools and charities, will always have a need for face-to-face financial services, despite advances in technology;*
- *For hundreds of communities, their only access to cash and financial services is through Bank@Post at their local post office;*
- *Bank@Post is an essential service to all communities, but is vulnerable to commercial decision-making by the banks, which can choose to withdraw their participation, and charge excessive fees on transactions;*
- *With four major banks controlling 80 per cent of the financial system, Australian consumers suffer from a lack of real banking competition;*

2. *The Council calls on the Commonwealth Parliament to pass the Commonwealth Postal Savings Bank Bill to establish a post office people's bank, fully guaranteed by the Commonwealth, as a dedicated postal savings bank, operating exclusively through Australia Post's corporate and licensed post offices, which will ensure basic banking services— including deposit-taking, business and personal lending, and access to cash—are available to all Australians, and will contribute to Australia's national economic development.*

3. *The Council will write to the Local State and Federal Members of Parliament, to inform them of Councils desire to support the passage of the Commonwealth Postal Savings Bank Bill through Parliament.*

### 0693 That with regard to the Elected Members' Motion - National Postal Saving Bank:

#### 1. The Council notes that:

- *Bank branch and ATM closures are leaving many communities without access to financial services, especially in regional Australia;*
- *Since 1975 the number of bank branches in regional Australia has fallen by more than 60 per cent, and there are more than 1,500 communities across Australia with no bank branches at all;*
- *A large proportion of the population, including the elderly, disabled, small businesses, and local schools and charities, will always have a need for face-to-face financial services, despite advances in technology;*
- *For hundreds of communities, their only access to cash and financial services is through Bank@Post at their local post office;*
- *Bank@Post is an essential service to all communities, but is vulnerable to commercial decision-making by the banks, which can choose to withdraw their participation, and charge excessive fees on transactions;*
- *With four major banks controlling 80 per cent of the financial system, Australian consumers suffer from a lack of real banking competition;*

**2. The Council calls on the Commonwealth Parliament to pass the Commonwealth Postal Savings Bank Bill to establish a post office people's bank, fully guaranteed by the Commonwealth, as a dedicated postal savings bank, operating exclusively through Australia Post's corporate and licensed post offices, which will ensure basic banking services— including deposit-taking, business and personal lending, and access to cash—are available to all Australians, and will contribute to Australia's national economic development.**

**Subject:** Att: Councillors, regarding a Public Postal Bank

Dear Councillors,

My name is Melissa Harrison. I am a researcher and reporter for the Australian Alert Service, the weekly magazine of the Australian Citizens Party. I'm writing to you because we are part of a grassroots campaign which is fighting for the establishment of a national Postal Savings Bank.

I am writing to local councils in Western Australia which have been impacted by the steady erosion of banking services in regional and rural Australia. Research by independent journalist Dale Webster has documented that since 1975, Australia's regional banking footprint has dwindled alarmingly, to a total loss of 60 per cent of the network. [1] The banking regulator, the Australian Prudential Regulation Authority (APRA), is shielding the big banks from the ire of the public by publishing false and distorted data about the scale of bank closures in regional Australia. [2]

Access to local banking services is critical in our regional communities. With the banks pulling out of regional Australia at a record pace, the public is increasingly relying on Australia Post to provide banking services. However, Australia Post is too vulnerable to the whims of the government of the day and commercial decisions from the Big Four banks. Although it was recently announced that the historic Bank@Post deal had been renewed, Australia Post is refusing to reveal the financial details of the deal that was struck with the Big Four banks. The Citizens Party has made freedom of information requests for clarity on these matters, but these have been rejected. The Citizens Party understands from reputable sources that the Community Access Fee to be paid by the big banks is now only \$10 million per year, half the amount that former Australia Post CEO Christine Holgate negotiated for the original deal. Alarmingly, *there are no written guarantees* that the banking deal with the Licensed Post Offices (LPO) will continue. The LPOs are vulnerable to the banks pulling out unexpectedly, leaving them where they were before the Bank@Post deal—on the edge of bankruptcy and being exploited by the government and the banks. The big banks are already throwing their weight around by charging exorbitant fees for their customers who want to bank through Australia Post. Without the banking services provided by Australia Post, many parts of regional Australia would not have access to banking at all.

We are calling on local councils and organisations to ask them to join us in fighting for federal legislation to create a Commonwealth Postal Savings Bank. A public postal savings bank will guarantee banking services at Australia Post and support the Licensed Post Offices to provide financial services for regional and rural Australians.

Support for a postal bank is rapidly expanding. The Councils of Strathfield (NSW); Cobar (NSW); Narrabri (NSW); Banana (QLD); and Yilgarn (WA) have passed motions in support of a postal bank. On 7 September, the Licensed Post Office Group (LPOG), which represents the interests of 3,000 small business community post offices around Australia, [hosted a public forum](#) on a postal bank proposal at Parliament House in Canberra. This event featured former New Zealand Cabinet Minister Matt Robson, who served in Helen Clark's Labour Party-led Coalition government from 1999-2002, and whose party started NZ's postal bank, called Kiwibank. Parliamentarians who support the postal bank also spoke, including Bob Katter MP, Senator Malcolm Roberts (One Nation) and Senator Gerard Rennick (Liberal Party). Genuine grassroots support for a postal bank is having a significant impact on politicians from all of the major parties.

Legislation for a public postal bank, the [Commonwealth Postal Savings Bank Bill 2021](#), has been drafted and Bob Katter MP is preparing to introduce the Bill into parliament.

We have drafted the following motion/resolution as a guide, which I am asking you to please consider discussing and moving at your next meeting, to endorse the *Commonwealth Postal Savings Bank Bill*.

Draft motion/resolution for a Commonwealth Postal Savings Bank

1. **The Council notes that:**

- Bank branch and ATM closures are leaving many communities without access to financial services, especially in regional Australia;
- Since 1975 the number of bank branches in regional Australia has fallen by more than 60 per cent, and there are more than 1,500 communities across Australia with no bank branches at all;
- A large proportion of the population, including the elderly, disabled, small businesses, and local schools and charities, will always have a need for face-to-face financial services, despite advances in technology;
- For hundreds of communities, their only access to cash and financial services is through Bank@Post at their local post office;
- Bank@Post is an essential service to all communities, but is vulnerable to commercial decision-making by the banks, which can choose to withdraw their participation, and charge excessive fees on transactions;
- With four major banks controlling 80 per cent of the financial system, Australian consumers suffer from a lack of real banking competition;

2. **The Council calls on the Commonwealth Parliament** to pass the *Commonwealth Postal Savings Bank Bill* to establish a post office people's bank, fully guaranteed by the Commonwealth, as a dedicated postal savings bank, operating exclusively through Australia Post's corporate and licensed post offices, which will ensure basic banking services—including deposit-taking, business and personal lending, and access to cash—are available to all Australians, and will contribute to Australia's national economic development.

3. **The Council will write** to the Local State and Federal Members of Parliament, to inform them of Councils desire to support the passage of the Commonwealth Postal Savings Bank Bill through Parliament.

I live in a regional town myself, in Winnejuup Western Australia. The nearby towns of Boyup Brook, Balingup and Donnybrook have lost their last Big Four bank. Access to banking services is essential for the functioning of our local businesses and tourism—markets, artists, craftspeople and local producers. A public postal bank would ensure these community businesses are supported in perpetuity.

**Purchase of Topaz for Mineral Collection**

EXECUTIVE SUMMARY

The Chief Executive Officer has been approached by Mr John Towing who asked if Council would be interested in purchasing a selection of Topaz from his collection. The Topaz stones in question were found at O'Brien's Creek and McDonalds Creek in the Etheridge Shire in the 1970's. The collection has a total of 456 carats, and Mr Towing is asking \$55.00/carat, rounding the price for this collection at \$25,000.

RESOLUTION

That Council authorise the purchase of the Topaz collection from Mr John Towing and amend the budget accordingly. The purchase is subject to an independent certified valuation being obtained to validate the purchase price.

## EXECUTIVE SUMMARY

Council received correspondence with an enclosed proposal and flyer of a proposed "The Commonwealth Postal Savings Bank Act 2021" which is to be tabled by Bob Katter in Federal Parliament. The Act would be a permanent solution to secure long term viability of Licence Post Offices and provide Banking Services to remote communities. The correspondence requested that Council pass a resolution in support of the new proposed establishment and forward the Letter of Support to Federal Representatives, Queensland State Representatives and to all Queensland Senators of all parties.

## RECOMMENDATION

That Council provide a Letter of Support for the proposed Commonwealth Postal Savings Bank Act 2021 to the appropriate parties.

---

## BACKGROUND

The proposal of a Commonwealth Postal Savings Bank would provide all financial products and banking services including short and long-term loans and including long-term financing of infrastructure projects to support business, economic growth and increased productivity, especially in Regional Australia. The Post Offices would no longer simply be agents facilitating deposits and withdrawals for the big four banks.

This is also highlighted by the recent closure of the Bendigo Bank Agency in Georgetown. Although the local Post Office somewhat is trying to fulfil this service, it is limited. For example, during times of events and fund raisers, there comes a time of limited cash being in circulation. Supporting this cause may alleviate this issue.

Overall the lack of banking services is a burden on this Council and the communities within.

This is an opportune time to consider other opportunities that Council may feel relevant to address this situation.

- Other Banks - Branch
- Other possible Bank In-store Agencies
- Etc.

I move

That Council calls on the Commonwealth Parliament to pass the Commonwealth Postal Savings Bank Bill to establish a post office people's bank, fully guaranteed by the Commonwealth, as a dedicated postal savings bank, operating exclusively through Australia Post's corporate and licensed post offices, which will ensure basic banking services—including deposit-taking, business and personal lending, and access to cash— are available to all Australians, and will contribute to Australia's national economic development.

#### **Mayoral Comments**

Bank branch and ATM closures are leaving many communities without access to financial services, especially in regional Australia.

Since 1975 the number of bank branches in regional Australia has fallen by more than 60 per cent, and there are more than 1,500 communities across Australia with no bank branches at all.

A large proportion of the population, including the elderly, disabled, small businesses and local schools and charities, will always have a need for face-to-face financial services despite advances in technology.

For hundreds of communities, their only access to cash and financial services is through Bank@Post at their community Post Office.

Bank@Post is an essential service to all communities, but is vulnerable to commercial decision-making by the banks, which can choose to withdraw their participation.

#### **RECOMMENDATION**

That Council calls on the Commonwealth Parliament to pass the Commonwealth Postal Savings Bank Bill to establish a post office people's bank, fully guaranteed by the Commonwealth, as a dedicated postal savings bank, operating exclusively through Australia Post's corporate and licensed post offices, which will ensure basic banking services—including deposit-taking, business and personal lending, and access to cash— are available to all Australians, and will contribute to Australia's national economic development.

**NOTICES OF MOTION**

**NM.12.1** ***SUPPORT THE COMMONWEALTH POSTAL SAVING BANK BILL***

**RESPONSIBLE OFFICER:** Greg McDonald - General Manager

**AUTHOR:** Robyn Cox - Executive Assistant

---

The following notice of motion was received from Cr James Burns:

**MOTION**

That Council:

1. note that:
  - a. bank branch and ATM closures are leaving many communities without access to financial services, especially in regional Australia.
  - b. since 1975 the number of bank branches in regional Australia has fallen by more than 60 per cent, and there are more than 1,500 communities across Australia with no bank branches at all.
  - c. a large proportion of the population, including the elderly, disabled, small businesses and local schools and charities will always have a need for face-to-face financial services despite advances in technology.
  - d. for hundreds of communities, their only access to cash and financial services is through Bank@Post at their community Post Office.
  - e. Bank@Post is an essential service to all communities but is vulnerable to commercial decision-making by the banks, which can choose to withdraw their participation.
2. call on the Commonwealth Parliament to pass the Commonwealth Postal Savings Bank Bill to establish a post office people's bank, fully guaranteed by the Commonwealth, as a dedicated postal savings bank, operating exclusively through Australia Post's corporate and licensed post offices, which will ensure basic banking services—including deposit-taking, business and personal lending, and access to cash—are available to all Australians, and will contribute to Australia's national economic development.
3. write and make representations to the Hon Mr Barnaby Joyce MP Member for New England and call upon him to support the bill in the Federal Parliament called the Commonwealth Postal Savings Bank Bill when introduced by Mr Bob Katter MP.

**Rationale:**

As Councillors would be aware Aberdeen and Murrurundi have no face-to-face banking facilities and Merriwa is down to one bank in the Regional Australia Bank. This has disadvantaged many people and businesses and charity groups in our Shire. While Scone has four Banks all but one run very obscure and inconvenient hours and business. Life and all other things do not always fit into the timeslots allotted for these branches. To be clear, this is not a motion about the staff of those outlets, it is a motion about the safeguarding of the regions to be able to bank and receive trusted advice from a friendly face.

<b>ITEM NUMBER</b>	13.1
<b>TITLE</b>	Commonwealth Postal Saving Bank
<b>REFERENCE</b>	379403
<b>AUTHOR</b>	Damien Burton, Director of Corporate Services

### RECOMMENDATION

1. That Council notes that:
  - Bank branch and ATM closures are leaving many communities without access to financial services, especially in regional Australia;
  - Since 1975 the number of bank branches in regional Australia has fallen by more than 60 per cent, and there are more than 1,500 communities across Australia with no bank branches at all;
  - A large proportion of the population, including the elderly, disabled, small businesses, and local schools and charities, will always have a need for face-to-face financial services, despite advances in technology;
  - For hundreds of communities, their only access to cash and financial services is through Bank@Post at their local post office;
  - Bank@Post is an essential service to all communities, but is vulnerable to commercial decision-making by the banks, which can choose to withdraw their participation, and charge excessive fees on transactions;
  - With four major banks controlling 80 per cent of the financial system, Australian consumers suffer from lack of real banking competition.
2. That Council calls on the Commonwealth Parliament to pass the Commonwealth Postal Savings Bank Bill to establish a post office people's bank, fully guaranteed by the Commonwealth, as a dedicated postal saving bank, operating exclusively through Australia Post's corporate and licensed post offices, which will ensure basic banking services – including deposit taking, business and personal lending, and access to cash- are available to all Australians, and will contribute to Australia's national economic development.
3. That Council will write to the Local, State and Federal Members of Parliament, to inform them of Councils desire to support the passage of the Commonwealth Postal Savings Bank Bill through Parliament.
4. That a community consultation engagement strategy to be developed and submitted within 10 days of the endorsement of the Notice of Motion by Council 23 February 2023.

### SUMMARY:

With the recent closure of the Westpac branch in Tennant Creek, our community has joined the ranks of the growing regional communities within Australia, without sufficient banking facilities to meet the communities daily and business needs.

Accessing banking services has become much harder for people in regional Australia over the past five years, leaving many customers practically cut off from the institutions that hold their money.

For senior citizens, people with disabilities and particularly disadvantaged people, the banking industry's cost-cutting measures have turned financial management into an onerous undertaking.

Establishing a Post Office - People's Bank, guaranteed by the Commonwealth Government would, at a minimum, enable the general community accessibility to basic banking functionality requirements within our region.

## BACKGROUND

Since 2021 local government councils across Australia have commenced lobbying Local, State and Federal Members of Parliament for the establishment of a Commonwealth Postal Saving Bank to our support rural Australian towns. As at 6 December 2022 such councils as Narrabri Shire Council NSW, Banana Shire Council QLD, Shire of Yigarn WA, Cobar Shire Council NSW, Strathfield City Council, Sydney NSW, Shire of Flinders QLD, City of Wagga Wagga NSW, District Council of Cooper Pedy SA, LaTrobe City Council Vic, Livingstone Shire Council QLD, Shire of Dowerin WA, Ballina Shire Council NSW has all passed motion supporting the CPSB.

The following information has been researched from multiple media sites and supports the need for a Commonwealth Postal Saving Bank in Tennant Creek to address the insufficient banking services within town and the Barkly region;

Data from the Australian Prudential Regulation Authority shows banks, building societies and credit unions cut the number of branches across Australia from 5816 in June 2017 to 4491 in June 2021 – almost 23 per cent of branches<sup>2</sup> and a massive 64% of all Australian branches since 1975.<sup>3</sup> There were 447 branch closures just in the 12 months to June 2021, but the major banks have continued to shut down branches since then<sup>2</sup>, with the addition of a 34% reduction of ATM machine availability.<sup>1</sup>

Regional community bank customers are being forced to drive long distances to do what they used to be able to do in their local area – often because their internet connections aren't strong or stable enough to support online banking or do not have access availability to complete online banking.

These closures mean people have to withdraw funds from their banks in supermarkets and other retailers, which put low limits on how much money they can take out. They may also have to pay as much as a \$3 fee just to check their balance or withdraw cash from a local ATM that's not affiliated with their bank.<sup>2</sup>

Despite recent advances in technology with online banking, many sectors of the population are still in great need of physical banking services including Indigenous people, elderly persons, disabled persons, the small business sector, local schools and charitable organizations.

Bank branch closures have been further exacerbated by the removal of ATM machines from these regional communities, forcing many to travel to other towns to access cash and/or banking services.

Small business that cannot physically bank their cash are forced to keep it on their premises creating serious security risks, likewise our general public in many cases are keeping cash at their premises which exacerbates their personal risk exposure.

Many regional communities and local government council's around Australia are calling on the Commonwealth Government to establish a Post Office People's Bank, guaranteed by the Commonwealth, which will ensure that basic banking services are available for all Australians.

Although banking through Australia Post is often touted as the best replacement of bank branches, a spokesperson for Australia Post said the local post office doesn't offer the business services needed for large amounts of cash, and internet banking isn't a realistic alternative.

Other shire councils and community groups across Australia, such as Tom Price in Western Australia's Pilbara region are exploring options of opening a community bank to fill the gap caused by the closure of the towns Westpac Bank.

Tennant Creek and the Barkly Region will need to continue to explore further options to support our communities and business sectors. Now, more than ever, people moving to regional Australia towns, bank closures are robbing our communities of the ability maintain their current population, but also inhibiting our communities ability grow a sustainable future for our regions.

A cost effective proposal, is to establish a Postal Bank is using the existing infrastructure of post offices.

Australia Post has the biggest retail footprint of any business in Australia, and is required and mandated by law to maintain services to all Australians.

Post offices already have limited banking infrastructure via the provision of the Bank@Post service. Bank@Post is a commercial agreement between Australia Post and the 4 major banks, and according to data within the information provided from our colleagues in local government councils across Australia, the agreement has the option to withdraw the banking services from Australia Post at any point within the term of the agreement.

From a socioeconomic prospective, the banking industry has clearly defined the line between profits and consumer, with the service offering to their customers at a minimum. This is no longer acceptable position for communities across Australia and here in Tennant Creek and the greater Barkly Region.

It is logical to lobby the Commonwealth Government to establish a public bank utilising the existing Australia Post infrastructure. This would restore the desperately needed face-to-face customer service banking requirements to meet the needs of demographics of our communities.

### **ORGANISATIONAL RISK ASSESSMENT**

The associated risk of submitting written support to the Local, State and Federal Members of Parliament supporting the passage of the Commonwealth Postal Savings Bank Bill through Parliament is inconsequential.

The associated risk of poor community public consultation is medium to high, with potential dissatisfy media from constituents and local Barkly MLA.

### **BUDGET IMPLICATION**

The associated costs for the public consultation strategy, implementation and final draft conclusions, is estimated at less than \$3,000.00.

### **ISSUE/OPTIONS/CONSEQUENCES**

Nil

### **CONSULTATION & TIMING**

It is important for the Barkly Regional Council to engage in public consultant prior to submitting written support to the Local, State and Federal Members of Parliament supporting the passage of the Commonwealth Postal Savings Bank Bill through Parliament.

Consultation with the wider community provides the opportunities for the diversity of our constituents to be heard, and allowing the Council to gain a sound understanding of the communities position with regards to rural banking requirements and the proposed written

submission to the Local, State and Federal Members of Parliament, supporting the passage of the Commonwealth Postal Savings Bank Bill through Parliament.

**CARRIED**

Notice of Motion:

That Council consider supporting, by way of a motion to be determined, the campaign for a public post office bank in Australia.

Further information on the proposal was emailed to all Councillors 3<sup>rd</sup> October 2022. The email contains various examples of motions passed by other Councils. The basic concept is detailed below:

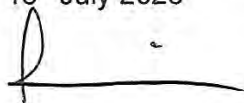

The Australian Citizens Party is part of a nationwide campaign to establish a new government bank, like the original Commonwealth Bank, to operate in post offices, which would guarantee face-to-face financial services for all communities, and force the Big Four banks to compete on both cost and service.

The post office bank would also:

- ⑩ Guarantee deposits, because it is a government bank;
- ⑩ Maintain cash payments and processing, which the private banks are trying to do away with;
- ⑩ Increase lending to individuals and small businesses in regional communities;
- ⑩ Invest in more infrastructure, including through local government.

This policy is different to the existing banking service in post offices, Bank@Post, because it is a dedicated postal bank that will increase competition, whereas Bank@Post is just an agency service for the existing banks which can withdraw any time. It is also different to community banks, which do an admirable job, but, again, they don't increase competition.

I have received information from the Australian Citizens Party regarding a campaign for a public post office bank in Australia.

The basic concept is detailed below:

The Australian Citizens Party is part of a nationwide campaign to establish a new government bank, like the original Commonwealth Bank, to operate in post offices, which would guarantee face-to-face financial services for all communities, and force the Big Four banks to compete on both cost and service.

**14.2. QUESTION WITH NOTICE - CR PAT FOGARTY**

At its September 2023 Ordinary Meeting, Council received a report recommending the adoption of a revised *Code of Conduct and Procedure for the Administration of the Code of Conduct*.

During the discussion on this Agenda item, Cr Pat Fogarty asked for further information about the definition of "other business" in clause 5.23: "The Chief Executive Officer must not engage, for remuneration, in private employment, contract work or other business outside the service of Council without the prior approval of Council, made as a resolution of Council".

**RESPONSE FROM CHIEF EXECUTIVE OFFICER**

Council's revised Code of Conduct has been drafted based on the NSW Office of Local Government's (OLG's) updated Model Code of Conduct.

Council has sought guidance from the OLG regarding a definition for "other business" in clause 5.23 of the Code.

OLG has provided the following advice:

"The relevant provision of the Model Code of Conduct (clause 5.23) is based on section 353(1) of the *Local Government Act 1993*. Where section 353(1) requires the general manager to obtain the council's approval for secondary employment and contract work, clause 5.23 of the Model Code of Conduct extends the requirement for council approval to "other business" that is remunerated (ie business that does not arise from an employment or contractual relationship)."

Good morning Gentlemen,

I refer to the correspondence received by email from Robert Barwick on 13th February 2024 regarding the Commonwealth Postal Savings Bank concept which is currently being considered in a Senate Enquiry.

I consider there are many worthwhile points raised in that correspondence which have the potential to affect all of our residents in the NLC area.

I note that 21 Council areas have endorsed the concept so far, according to the email.

To that end I request that the following Motion with Notice be included in the agenda for the next council meeting.

1. That Council calls on the Commonwealth Parliament to pass the Commonwealth Postal Savings Bank Bill to establish a post office peoples bank, fully guaranteed by the Commonwealth, as a dedicated postal savings bank, operating exclusively through Australia Post's corporate and licensed post offices, which will ensure basic banking services - including deposit- taking, business and personal lending, and access to cash - are available to all Australians, and will contribute to Australia's national economic development.

2. That Council write to Tony Passin, local Federal Member, Nick McBride, local State Member, the Australian Local Government Association, the South Australian Local Government Association and the Limestone Coast Local Government Association along with other people and or organisations deemed to be relevant, setting out and supporting point number 1 within.

End.

Should you have any questions please call me.
